Professional Summary: AI-focused Computer Science student with hands-on experience in Machine Learning, Computer Vision, and IoT systems. Proven ability to build real-world applications including intelligent automation systems, chatbots, and smart devices. Strong foundation in Python, data analysis, and problem-solving, with a passion for developing impactful, scalable solutions.

ACADEMICS

- BS – Data Science & Applications 2024 – 2028**
Indian Institute of Technology, Madras (Online)
- BSc Computer Science (AI) 2024 – 2027** **84%**
SDNB Vaishnav College for Women, Chennai
- HSC – Grade 12** **81.3%**
Sri Sankara Matric. Hr. Sec. School, Chennai
- SSLC – Grade 10** **87.2%**
Sri Sankara Matric. Hr. Sec. School, Chennai

Technical Skills

Programming Languages:

Python, Java (Basic)

AI / Machine Learning:

Machine Learning, Computer Vision, Model Building

Web Development:

HTML, CSS, JavaScript, Bootstrap (Basic)

Data & Analytics:

Power BI, Excel (Basic)

Tools & Platforms:

GitHub, Figma, Canva (Basic)

Curricular Achievements & Soft Skills

Achievements:

- 2nd Place – Coding Competition, Aadhi College of Engineering
- 3rd Place – Coding Competition, SDNB Vaishnav College for Women
- Active participant – Smart India Hackathon, Odoo Hackathon, Smart Ideathon

Soft Skills:

- Problem Solving & Analytical Thinking
- Team Collaboration & Leadership
- Communication & Presentation Skills
- Adaptability & Continuous Learning

Publications & Additional Work

- Author of "Pathfinder Python: A Concept to Creation" (Published on Scribd)
- Developed mobile application using MIT App Inventor
- Created frontend projects (Astronomy Learning, Yoga Platform, Café Website)

Experience

Agentic AI Developer Intern – Stud Ai One (May 2026 – July 2026)

- Developed and enhanced AI-powered workflows using modern LLMs and AI tools.
- Assisted in designing and implementing agent-based automation solutions.
- Worked with APIs, cloud platforms, and development tools to build and deploy AI features.
- Collaborated with the team to test, debug, and improve AI applications.
- Contributed to product development and documentation.

Project Showcase

Smart Disaster Response & Safety Rover (IoT + AI)

- Designed and developed an IoT-enabled rover for detecting hazardous environments.
- Integrated sensors and real-time monitoring to improve early risk detection.
- Demonstrated practical application of embedded systems and automation.

Face Recognition Attendance System (ML + Computer Vision)

- Built an automated attendance system using facial recognition.
- Implemented image processing and classification using Python and OpenCV.
- Improved accuracy and reduced manual intervention in attendance tracking.

LLM-Based Chatbot (Python + Streamlit)

- Developed an interactive chatbot using OpenAI API.
- Designed a responsive user interface using Streamlit.
- Enabled conversational interaction for user queries.

Mood-Based Art Generator (Computer Vision)

- Created a system that detects user emotions and generates corresponding art.
- Applied facial detection and classification techniques.

Certifications

- Microsoft Applied Skills (12 Certifications)
- NSDC Skill India – Software Engineering
- NSDC Skill India – Power BI Visualization
- EF SET English Certificate – C2 Proficiency
- AI, ML, Cloud Computing, Cybersecurity & UI/UX (Coursera, Infosys, TCS, LinkedIn)
