Professional Summary: AI-focused Computer Science student with hands-on experience in Machine Learning, Computer Vision, and IoT systems. Proven ability to build real-world applications including intelligent automation systems, chatbots, and smart devices. Strong foundation in Python, data analysis, and problem-solving, with a passion for developing impactful, scalable solutions.

ACADEMICS

BS – Data Science & Applications 2024 – 2028	Indian Institute of Technology, Madras (Online)	GPA 6.55
BSc Computer Science (AI) 2024 – 2027	SDNB Vaishnav College for Women, Chennai	84%
HSC – Grade 12	Sri Sankara Matric. Hr. Sec. School, Chennai	81.3%
SSLC – Grade 10	Sri Sankara Matric. Hr. Sec. School, Chennai	87.2%

Technical Skills

Programming Languages:

Python, Java (Basic)

AI / Machine Learning:

Machine Learning, Computer Vision, Model Building

Web Development:

HTML, CSS, JavaScript, Bootstrap (Basic)

Data & Analytics:

Power BI, Excel (Basic)

Tools & Platforms:

GitHub, Figma, Canva (Basic)

Curricular Achievements & Soft Skills

Achievements:

- TCS CodeVita Season 13 – Secured Global Rank 4543 (2025 – 2026)
- 2nd Place – Coding Competition, Aadhi College of Engineering
- 3rd Place – Coding Competition, SDNB Vaishnav College for Women
- Active participant – Smart India Hackathon, Odoo Hackathon, Smart Ideathon

Soft Skills:

- Problem Solving & Analytical Thinking
- Team Collaboration & Leadership
- Communication & Presentation Skills
- Adaptability & Continuous Learning

Publications & Additional Work

- Author of "Pathfinder Python: A Concept to Creation" (Published on Scribd)
- Developed mobile application using MIT App Inventor
- Created frontend projects (Astronomy Learning, Yoga Platform, Café Website)

Experience

Agentic AI Developer Intern – Stud Ai One (May 2026 – July 2026)

- Built and enhanced AI-powered workflows and agent-based automation using modern LLMs and AI tooling.
- Worked with APIs, cloud platforms, and dev tools to build, deploy, test, and debug AI features.
- Contributed to product development and documentation.

Project Showcase

Glamour Beauty & Boutique App (React Native + Expo)

- Built a cross-platform mobile app for a beauty parlour and boutique with service browsing and appointment booking.
- Delivered a clean, mobile-first experience with a downloadable Android APK.

Smart Disaster Response & Safety Rover (IoT + AI)

- Designed an IoT-enabled rover with integrated sensors and real-time monitoring to detect hazardous environments.
- Applied embedded systems and automation for early risk detection.

Automated Attendance System (ML + Computer Vision)

- Built a facial-recognition attendance system using Python and OpenCV for image processing and classification.
- Improved accuracy and reduced manual intervention in attendance tracking.

Harsh Core Chatbot (Python + Streamlit)

- Developed an interactive LLM-based conversational chatbot with a responsive Streamlit interface.
- Deployed live on Streamlit Cloud for instant access.

Mood-Based Art Generator (Computer Vision)

- Created a system that detects user emotions and generates corresponding art.
- Applied facial detection and classification techniques.

Student's Performance Predictor (Machine Learning)

- Built an ML model that predicts student academic performance from key inputs.
- Deployed as an interactive Streamlit app to help identify students needing support.

Catch the Cat Game (MIT App Inventor – No-Code)

- Built a no-code, block-based Android game with event-driven logic and sprite animation.
- Published with a downloadable Android APK.

Certifications

- Introduction to Machine Learning – NPTEL (Elite, 2026)
- Foundations of Programming & Data Science – IIT Madras (2025)
- Microsoft Applied Skills (12 Certifications)
- NSDC Skill India – Software Engineering
- NSDC Skill India – Power BI Visualization
- EF SET English Certificate – C2 Proficiency
- AI, ML, Cloud Computing, Cybersecurity & UI/UX (Coursera, Infosys, TCS, LinkedIn)
